LK ANTIAGE

LK anti-age with Phyto-Enancher dyeing is dedicated to solve any problem of coloring that occurs with advancing age. Thanks to the innovative active ingredient Phyto-Enancher , the micromolecules of dyes anti-age cream LK , in place who randomly sorted , as with any other colouring cream , are conveyed directly into the anchor points of the keratin structure until that , over the years , have been reduced drastically. Phyto-Enancher allows a perfect penetration of color in hair less receptive, guaranteeing a perfect seal of the scales , better hydration and brilliant colors and at any age.
