HYDROGEN PEROXIDE EMULSIFIED BLACK
ACQUA OSSIGENATA EMULSIONATA BLACK

HYDROGEN PEROXIDE BLACK has been formulated in the emulsified version, which has the advantage of a greater consistency, with respect to the normal hydrogen peroxide liquid. The creaminess of the hydrogen peroxide EMULSIFIED allows an easier to use, since it avoids unwelcome problems of casting and at the same time a lower aggressiveness for the hair. It is available in different volumes, ie volumes 10/20/30/40, to allow the widest possible choice, depending on the type of requirements, according to the result to obtain.

box:

- 250 ml bottles for versions 20/30/40 volumes
- Bottles 1000 ml versions 10/20/30/40 volumes
