GREENION CROC IONIC DRYER GREENION CROC IONIC DRYER

uses both ceramic balls that technology Greenion. The Ceramic Balls Air Purifying are a series of ceramic balls that activate and ionize the molecules of water purifying the air. Greenion Technology uses the power of negative ions and the green wavelength (500-575 Nm) to produce healthy negative ions in amounts 1000000-3000000 per minute, more than any other ionic dryer on the market.

Features:

- Continuous flow of over 3 million negative ions for hair softer, healthier and without static.
- ON / OFF switch for ironing and to create volume.
- Lightweight, ergonomic design makes it easy to handle.
- Motor Hybrid AC.
- Body insulated suitable for designers who wish to challenge the dryer to the barrel without burning.
- Constructed with a double shell for extreme durability, suitable for use in professional salon.
- Silent fan reduces noise.
- 1875 watts.
