B254 KERATIN 230

plate straighteners ultrasonic treatment keratin

KERATIN plate 230, used at a maximum temperature of 180 ° C, is perfect for a smooth ironed, curls and waves. Used to 230 ° C and combined with ultrasonic function, has all the characteristics to perform the function of sealing the keratin treatments.

- Saucers in Metal Gold.
- Digital display.
- Function ultrasound (helps in the breakdown of molecules to a greater attachment to the Keratin treatment).
- Digital thermostat pre- set at 180 ° C for a canonical use of the plate, but with the possibility of increasing the temperature of up to 230 ° C for treatments to Keratin.
- Silicone cable with swivel 360 degrees.
