THERMO STRAIGHT frizz smoothing effect

THERMO STRAIGHT is an innovative treatment H -Zone, which uses four easy steps, create a smooth effect on all types of hair. Do not alter or damage the natural condition of the hair. THERMO STRAIGHT, thanks to the innovative formulation to keratin, evens out the porosity, protects and moisturizes the hair.

A PRE- TREATMENT

package : 1000 ml bottle.

A + ACTIVATOR KERATIN

package : 250 ml bottle.

B TREATMENT

package : 500 ml bottle.

C POST - TREATMENT

package : 500 ml bottle.

method of use : Step 1: divide the hair into sections and apply the product with a brush, distribute the product on each section. Leave the product on for 10-12 minutes. Rinse thoroughly several times.

Step 2 : wash your hair with B TREATMENT. Leave on for 5-7 minutes. Rinse thoroughly. Dab wet hair with a towel, leaving them moist.

Step 3 : divide the hair into thin strands, spread to the bottom C POST - TREATMENT of each strand and massage. Comb through with a fine-toothed comb. Leave on for 5 minutes. Remove excess product with a light rinse. Blot with a towel. Blow dry your hair with accompanying brush. Proceed to definitive treatment with a professional plate. Iron from the root to the ends. Review the plate 7-8 times on each strand.
