COLOR CONSERVE COLOR CONSERVE

is a line of hair care products that combines 93% of ingredients derived from nature. The extract from the larch forms a natural film inside the hair helping to preserve the color. The green tea extract is an antioxidant that helps to protect your hair from the aggression of external agents and free radicals from domestic ones. Natural sunscreens arising from Evergreen and cinnamon protect from damaging UV rays which can cause color fading. The baobab oil, castor and sunflower add brightness and color brilliance, making it appear more vibrant. The glycerin gives nourishment to the hair. The fresh scent of mint, grapefruit and mandarin, combined with lavender and a touch of spicy cinnamon and ylang ylang create an intoxicating aroma. The line, which was created to help women maintain the hair color, it consists of:

SHAMPOO AND CONDITIONER

To wash and gently nourish, protect and preserve colored hair maintaining long- staining and leaving them silky and soft. Shampoo and conditioner contain substances that protect against UV rays to prevent color fading.

package : 250 ml bottle of shampoo, conditioner in 200 ml tube.

COLOR PROTECT DAILY

Daily treatment that protects color while keeping it intact for up to six weeks while brightens and nourishment to the hair.

STRENGTHENING TREATMENT

This intensive weekly treatment preserves the cuticle to illuminate color with bright reflections. The formula contains natural Morikue™ : a complex of proteins derived from Brazilian Walnut, which strengthen hair from the inside out.
