INTERACTIVES: HYDRA RESCUE

intensive moisturizing treatment

The dry and sensitized hair have a hydro-lipid deficiency that makes them more vulnerable to external aggressions.

They are brittle and frizzy hair, split ends, which are difficult to disentangle. The Hydra Capture System moisturizes and strengthens the hair from within the structure against aggressions, preventing breakage. Jojoba oil nourishes the hair dry and frizzy hair, closes the cuticle and gives softness, shine and a disciplining effect.

Results: maintaining the water level up to 36% longer, even under the most extreme conditions * hair nourished and hydrated in depth with an exceptional shine and softness.

* Test carried out after 5 applications on bleached hair and with a low level of humidity.

HYDRA RESCUE SHAMPOO - hydrating intensive
