INTENSIVE LINE AQUA

a real Spa Mediterranean

Nature gives us many types of water : the elements it contains, and its origin defining characteristics. One of the water is the most precious thermal water, discovered by many centuries ago and widely used. The chemical and physical properties that make up the thermal waters are very different from each other and can be used as organic applications. The waters of the Thermal Centre of Spezzano revealed no special features to the care and beauty of the hair when combined with other natural substances. The properties of this precious thermal water, rich in trace elements, allow the easy absorption of the active ingredients from plants chosen for each Vitality's anomaly of the hair. Leaves are rich in polyphenols with antioxidant activity are extracted with a solvent valuable and unique thermal water source Thurio Terme di Spezzano : a pure concentrated thermal Mediterranean consists of: 40 % olive leaves, orange leaves 30 %, 30 % of clementine leaves.
